**VINAYAKA MISSION'S RESEARCH FOUNDATION  
(DEEMED TO BE UNIVERSITY), SALEM**

**B.H.M.S. DEGREE EXAMINATION – February 2024**

**Third Year**

**OBSTETRICS AND GYNAECOLOGY PAPER - I**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Give the gynecological causes of the bleeding per vagina. Define DUB and discuss its causes, classification differential diagnosis, investigations, and Homoeopathic Management with Phosphorus, Trillium, Thlapsi and Ustilago.
- 2) A young newly married couple came for contraception. What are the types of contraceptive measures that will be advised for them? Explain in detail about the prescription and advice for implementing it and write the merits and demerits of IUCD.
- 3) Enumerate the causes of mass per Abdomen in 35-year-old women. Discuss the investigation and management of fibroid uterus with Thlapsi bursa, Conium, Thuja and Aurum Mur natrum.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Explain the Procerentia and indication of Murex and Sepia in Prolapse.
- 5) Cryptomenorrhoea.
- 6) Tanner staging in puberty.
- 7) USG in gynecology.
- 8) PMS with 2 indicated homoeopathic remedies.
- 9) Male infertility – causes and investigation.
- 10) Chocolate cyst with 2 indicated medicines.
- 11) CIN – 2 indicated medicines.
- 12) Cystitis – indication of Pulsatilla and Merc Sol.
- 13) RVF – Aesculus.
- 14) Hirsutism.
- 15) Menopause – indication of Graphitis and Lachesis.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Graafian Follicle
- 17) BBT
- 18) Doderlein Bacilli
- 19) Klinefelter's Syndrome
- 20) Womb Stone
- 21) Pruritus Vulva – Caladium and Croton Tig
- 22) Mastitis – 2 indicated medicines
- 23) Membranous Dysmenorrhoea
- 24) Meig's syndrome
- 25) Two cell theory

**OBSTETRICS AND GYNAECOLOGY PAPER - II**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Define labour. Describe the causation of labour. Mention the stages of labor and write in detail about the first stage of labor, indication of Caulophyllum and Pulsatilla in labour.
- 2) What is a breech presentation? Explain its complications and management. Narrate the forceps delivery after coming head.
- 3) Define Anemia in pregnancy. Explain in detail the causes and types with clinical features, investigations, preventive measures and management during pregnancy, labour and puerperum. Write the indication of two homoeopathic remedies.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Multiple pregnancy – diagnosis and complication.
- 5) Prolonged pregnancy – etiology, diagnosis and management.
- 6) Non-stress test explain NST in IUGR.
- 7) Abortion – Fate of threatened abortion.
- 8) Mechanism of labour.
- 9) Fetal circulation.
- 10) External Cephalic Version.
- 11) USG in obstetrics.
- 12) Cephalo pelvic disproportion.
- 13) ARM.
- 14) Explain cystitis during pregnancy with 4 homoeopathic remedies.
- 15) Newborn immunization.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Blighted Ovum.
- 17) Roll over test.
- 18) Eve's Rocking.
- 19) Waste space of Morris.
- 20) Spalding Sign.
- 21) Naegele's formula.
- 22) Phlegmasia Albadolens – Vipera.
- 23) Cephalic Hematoma -two indicated remedy.
- 24) Couvelaire uterus.
- 25) Placental migration.

**B.H.M.S. DEGREE EXAMINATION – October 2023**

**Third Year**

**OBSTETRICS AND GYNAECOLOGY - PAPER I**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) A 55 year old lady came with bleeding per vagina. Discuss the causes of the bleeding per vagina. Explain details of the CA cervix in staging, investigation, clinical features and management with four indicated homoeopathic medicines.
- 2) Define Amenorrhoea, Types. Explain in detail about pathology, clinical features and investigation of PCOS. Explain Calcarea Carb, Apis Mellifica, Pulsatilla and Senecio Aur.
- 3) Define sexually transmitted disease. Name them. Explain any five diseases with etiology, mode of transmission, clinical features and diagnosis.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Menopausal Syndrome – Calcarea Ars.
- 5) HPO Axis.
- 6) Adenomyosis with two remedy with indication.
- 7) Contraception.
- 8) Classification of Benign ovarian tumors.
- 9) Methods for diagnosis of Ovulation.
- 10) Types of myoma of Uterus and its degenerative changes.
- 11) ART.
- 12) Mullerian Malformation – Uterine Anomalies.
- 13) Cervical Erosion and Indication of Kreosotum and Acid Nitricum.
- 14) Prolapse of Uterus – Sepia and Murex.
- 15) Urinary Incontinence – Indication of Causticum and Lyssin.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Super Female.
- 17) HSG.
- 18) Vasectomy.
- 19) Fibroadenoma – Conium and Phytolacca D.
- 20) Mittelshmerz Syndrome.
- 21) Vaginal Ph.
- 22) Spasmodic Dysmenorrhoea – Viburnum and Sabina.
- 23) Sampson's Implantation Theory.
- 24) Witch's Milk.
- 25) Vulvodynia.

**VINAYAKA MISSION'S RESEARCH FOUNDATION  
(DEEMED TO BE UNIVERSITY), SALEM**

**B.H.M.S. DEGREE EXAMINATION – October 2023**

**Third Year**

**OBSTETRICS AND GYNAECOLOGY PAPER - II**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Define Toxemia in Pregnancy. Explain in detail about etiopathology, clinical features, and complications of preeclampsia. Write four medicines with indication.
- 2) Enumerate the complications of the third stage of labour. Explain PPH and its management in detail with two indicated remedies.
- 3) Discuss the pathology, clinical features, and management of Hyperemesis Gravidarum with Ipecac, Symphoricarpus, Asarum, Euphorbium, Nux Vomica, and Lobelia.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) CPT
- 5) Induction Labour – Method and precautions.
- 6) Puerperal Sepsis – Pyrogen.
- 7) Placenta Previa – Secale Cor and Hamamalis.
- 8) APGAR Score – Laurocerosus and Carbo veg in asphyxia neonatrum.
- 9) Differentiate between Cephalic Hematoma and Caput Succeden
- 10) IUD
- 11) MTP
- 12) Explain Leopold's maneuvers.
- 13) Obstetric management in diabetes complicates pregnancy with two indicated homoeopathic remedies.
- 14) Development and functions of the placenta.
- 15) Neonatal Jaundice with two homoeopathic medicine.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Precipitate labour.
- 17) Types of episiotomy.
- 18) Symptom triad in ectopic pregnancy.
- 19) Supine hypotension syndrome.
- 20) Lochia.
- 21) HELLP Syndrome
- 22) TORCH
- 23) Anencephaly
- 24) Breastfeeding
- 25) Quickening

**VINAYAKA MISSION'S RESEARCH FOUNDATION**  
**(DEEMED TO BE UNIVERSITY), SALEM**  
**B.H.M.S. DEGREE EXAMINATION – May 2023**  
**Third Year**

**OBSTETRICS AND GYNECOLOGY PAPER - I**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) What is Amenorrhoea? Describe the causes, investigations and homoeopathic treatment for secondary Amenorrhoea.
- 2) Define "fibromyoma". Discuss about the types, clinical picture. Differential diagnosis and four Homoeopathic drugs with their indications for fibromyoma.
- 3) What is "stress incontinence"? Write about the causes, types, clinical features and four homoeopathic drugs with their indications for stress incontinence.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Lichen sclerosus.
- 5) Tests for ovulation.
- 6) Dysmenorrhoea . Write the indication for the following drugs.  
i) Chamomilla                      ii) Caulophyllum                      iii) Cimicifuga  
iv) Xanthoxylum                      v) Lachesis
- 7) Discuss the differential diagnosis and management of post – menopausal bleeding.
- 8) Discuss the clinical features, diagnosis and management of CIN.
- 9) Androgen producing ovarian tumours.
- 10) True Hermaphroditism.
- 11) Ovarian Endometriomas.
- 12) Cervical ectopy – pathogenesis, clinical features, investigations and management.
- 13) Vulval pain syndrome.
- 14) Luteinised unruptured follicular syndrome.
- 15) Candida- vaginitis clinical features investigations and management.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Vaginismus.
- 17) Long term consequences of PCOS.
- 18) Nabothian cysts.
- 19) Cryptomenorrhea.
- 20) Visual Inspection of the Cervix with Acetic Acid (VIA) and Lugol's Iodine(VILI).
- 21) Hydrosalpinx.
- 22) Aspermia.
- 23) Behcet's disease vulvae.
- 24) Corpus Cancer Syndrome.
- 25) Common causes of Chronic Pelvic Pain(CPP).

**OBSTETRICS AND GYNAECOLOGY PAPER – II**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Describe in detail about the causes of Haemorrhage before 28<sup>th</sup> weeks of pregnancy. Mention three Homoeopathic drugs with their indication for haemorrhage during pregnancy.
- 2) Discuss about the breast feeding and artificial feeding. Mention four homoeopathic drugs with their indication for "Agalactia".
- 3) How will you assess asphyxia neonatrum? Explain the management and complications of asphyxia neonatrum.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Difference between Constriction ring and Retraction ring.
- 5) Explain in detail about origin and features of Amniotic fluid.
- 6) Haematological changes during pregnancy.
- 7) Leopold maneuvers.
- 8) Difference between Caput succedaneum and Cephalhematoma.
- 9) Amniocentesis in late pregnancy.
- 10) Events in third stage of labour.
- 11) Parameters for Routine assessment of progress of gestation in each antenatal visit.
- 12) Syphilis during pregnancy.
- 13) Effects of Diabetes on Fetus.
- 14) Explain about common anomalies of placenta.
- 15) Fate of tubal pregnancy.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Lovset manoeuvre.
- 17) Obstetric conjugate.
- 18) Rohr stria.
- 19) Lambda sign.
- 20) Methods of placental localization.
- 21) Hyperemesis gravidarum indication of two Homoeopathic medicines.
- 22) Hydrops fetalis.
- 23) Deep Transverse Arrest (DTA).
- 24) Causes of prolonged second stage of labour causes.
- 25) Hydrocephalus.

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Define endometriosis. Explain briefly about its aetiology, sites, pathology, classification, clinical features, and investigation, scope of homoeopathic management of endometriosis.
- 2) Classify ovarian tumours. Write the indications of Carbo animalis, Calcarea flour, Hydrastis, Thuja and Sepia.
- 3) Define infertility. Elaborate its aetiology, investigations and Artificial Reproductive Technology.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Uterine prolapsed- Murex and Lilium tig.
- 5) Plevic ureter.
- 6) Imperforate Hymen.
- 7) PID.
- 8) Genital Tuberculosis.
- 9) Donovanosis.
- 10) Menorrhagia- Thalapsi bursa and Trillium.
- 11) Retroversion.
- 12) Cervical erosion.
- 13) Vulval Intra epithelial Neoplasia.
- 14) Menopausal syndrome- Lachesis and Graphites.
- 15) Vesicovaginal Fistula.

III. Write short notes of the following: (Answer ALL): (10 x 2 = 20)

- 16) Mc Cune- Albright syndrome.
- 17) Menstrual hygiene.
- 18) Hysteroscopy.
- 19) Latent syphilis.
- 20) Senile vaginitis.
- 21) Kallmann's syndrome.
- 22) Chemotherapy.
- 23) Overactive bladder.
- 24) Uterthral caruncles.
- 25) Vaginal contraceptives.

**B.H.M.S. DEGREE EXAMINATION – April 2022  
Third Year**

**OBSTETRICS AND GYNECOLOGY – PAPER – I**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Define endometriosis. Discuss the pathology, clinical features and its diagnosis.
- 2) What do you mean by “Erosin of cervix” ? Write about the aetiology, pathology, clinical picture differential diagnosis and management for “Erosin of Cervix”.
- 3) Describe in detail about the Menorrhagia and Metrorrhagia Write the indications for the following drugs in Menorrhagia i) Sabina  
ii) Phosphorus iii) Aletris Farinosa iv) Calc carb

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Define pruritus vulvae and mention its aetiology.
- 5) Tubal patency tests.
- 6) Vesico vaginal fistula.
- 7) Discuss the different methods of contraception. What type of contraception you will advise for a newly married couple? Give the reasons.
- 8) Differences between benign and malignant ovarian tumors.
- 9) Involvement of Hypothalamic – Pituitary compartment in PCOS.
- 10) Adreno genital syndrome.
- 11) Adenomyosis Clinical features, investigations and management.
- 12) Brief note on common Vulval ulcers.
- 13) Azoospermia investigations and management.
- 14) Trichomonas vaginitis clinical features investigations and management.
- 15) Maturation Index.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Mittelschmerz.
- 17) Collinsonia for Haemorrhoids during pregnancy.
- 18) Salpingitis isthmica nodosa(SIN).
- 19) Colposcopy.
- 20) Gartner's Gut cyst.
- 21) Toxic shock Syndrome.
- 22) HAIR-AN syndrome.
- 23) Fixed retroversion.
- 24) Indication of Fructose content in seminal fluid.
- 25) Lipschitz ulcer.

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) What is P.P.H? Discuss about the types, causes and management for P.P.H. Write the indication for the following drugs i) Arnica ii) Caulophyllum iii) Secale cor iv) Sabina
- 2) Define “ Hydramnios”. Write about the types, clinical features, complication and management for Hydramnios.
- 3) How will you diagnose Multiple Pregnancy? Explain the management and complications of multiple pregnancy.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Difference between Bandl's ring and schoeder's ring.
- 5) Explain in detail about foetal membranes.
- 6) Physiological changes of uterus during pregnancy.
- 7) Define Molding of foetal head, its mechanism, importance and grading.
- 8) Immunization during Pregnancy.
- 9) Biophysical tests for foetal surveillance.
- 10) Events in first stage of labour.
- 11) Pathophysiology of preeclampsia and eclampsia.
- 12) Asymptomatic Bacteriuria during pregnancy.
- 13) Write in detail about Iron deficiency Anaemia during pregnancy; give indications of Ferrum phos and China.
- 14) Effects of Diabetes on pregnancy.
- 15) Morbidly Adherent placenta.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Vasa previa.
- 17) Marshal – Burn's Techniques.
- 18) Diagonal Conjugate.
- 19) Nitabuch's Membrane.
- 20) Collinsonia in pregnancy.
- 21) Weaning.
- 22) Platypelloid pelvis.
- 23) Acute Pain in Abdomen During Pregnancy D/D.
- 24) Trial Labor.
- 25) “Face-to-Pubis” delivery.

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

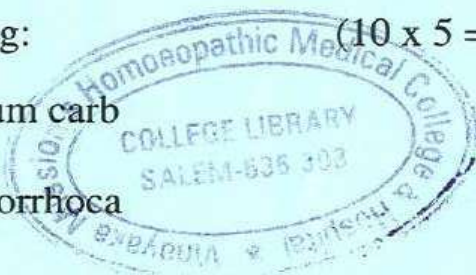

- 1) Explain briefly about Abnormal uterine bleeding and its Homoeopathic management.
- 2) Elaborate the Displacement of uterus and its corrective treatment. Add a note on homoeopathic mode of treatment in uterine prolapse.
- 3) Define primary Amenorrhoea. Discuss the causes and investigations of Amenorrhoea. Write five Homoeopathic remedies with their indications in the treatment of Amenorrhoea.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Endometriosis-Phosphorus and Ammonium carb
- 5) Pelvic abscess-Merc.sol and Hepar sulph
- 6) Borax and Viburnum opulus in Dysmennorrhoea
- 7) Platina and Cantharis in Nymphomania
- 8) Female Intersex
- 9) Post-menopausal changes and management
- 10) Pelvic Diaphragm
- 11) Precocious puberty
- 12) Bimanual examination
- 13) Culdocentesis
- 14) Genital tuberculosis
- 15) Herpes genitals

III. Write short notes of the following: (Answer ALL): (10 x 2 = 20)

- 16) Sim's speculum
- 17) Spinnbarkeit test
- 18) Virilism
- 19) Fibroadenoma
- 20) Witch's milk
- 21) Tubectomy
- 22) Missed pills
- 23) Sheehan's syndrome
- 24) Sertoli-Leydig tumour
- 25) Dyspareunia

(DEEMED TO BE UNIVERSITY), SALEM**

**B.H.M.S. DEGREE EXAMINATION – August 2021**

**Third Year**

**OBSTETRICS AND GYNECOLOGY PAPER - I**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Give an account of abnormal menstrual bleeding and write in detail about Dysfunctional uterine bleeding, its causes, clinical features, investigations and management.
- 2) Describe in detail about endometrial carcinoma. Write the indication for the following drugs in Carcinoma of the endometrium : i) Nitric acid ii) Hydrastis iii) Kali bi iv) Lycopodium.
- 3) Describe the clinical verities of Uterine leiomyoma. Discuss about etiology, clinical features, diagnosis and management of a case of Fibroid uteri.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Briefly explain about Turner's syndrome and genetic dyscrasias.
- 5) Explain briefly about gynecological causes of low backache and its management.
- 6) Give the causes of pruritus vulvae and its management.
- 7) Explain Endometriosis and its management.
- 8) Metropathia haemorrhagica and scope of homoeopathy.
- 9) Abdominal hysterectomy and its advantages.
- 10) Belladonna and Platina in menstrual complaints.
- 11) Briefly explain female infertility and its causes.
- 12) Explain the long term consequences of stein – Leventhal syndrome.
- 13) Benign ovarian tumors and scope of homoeopathy.
- 14) Discuss in detail about Pap's smear and its benefits.
- 15) Differentiate Trichomoniasis and Moniliasis.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Toxic shock syndrome.
- 17) Fitz - Hugh - Curtis syndrome.
- 18) Uterine Curettage.
- 19) Chancroid – Thuja.
- 20) Carcinoid syndrome.
- 21) Kallmann's syndrome.
- 22) Bacterial Vaginosis - Pulsatilla.
- 23) Dermoid cyst of the ovary.
- 24) Advantages of Ultrasonography.
- 25) Bartholin cyst - Apis mellifica.

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following: (2 x 15 = 30)

- 1) Define Anaemia. Explain various causes of anaemia during pregnancy and give its management and complication.
- 2) Define Breech presentation. Write in brief about its varieties, etiology, diagnosis, mechanism, prognosis and line of management during labour.
- 3) Define Low birth baby. Describe its etiology, clinical features, investigations and diagnosis. Give indication of two homoeopathic drugs for such condition.

II. Write short essays on any **TEN** of the following: (10 x 5 = 50)

- 4) Explain Pemphigus neonatorum and give indication of Bufo rana, and Rhustoxicodendron.
- 5) Explain Backache during pregnancy and give indication of Lycopodium and Calcarea carb.
- 6) Differentiate true labour pain and false labour pain.
- 7) Prenatal Diagnostic Technique (Regulation and Prevention of mis-use) Act, 1994.
- 8) Explain briefly about Abruptio placenta and its management.
- 9) Explain about abortion and its management.
- 10) Briefly explain about Bad obstetric history.
- 11) Briefly explain about outlet forceps delivery.
- 12) Explain briefly about Apgar score.
- 13) Differentiate constriction ring and retraction ring.
- 14) Explain about uteroplacental apoplexy.
- 15) Write briefly about antenatal care in Diabetes complicating pregnancy.

III. Write short notes of the following: (**Answer ALL**): (10 x 2 = 20)

- 16) Dangerous placenta Previa.
- 17) Battledore placenta.
- 18) Complication of Ectopic gestation.
- 19) Supine hypotension syndrome.
- 20) Hegar's sign.
- 21) Episiotomy.
- 22) Cephal hematoma.
- 23) Intra uterine contraceptive devices.
- 24) Hydrocephalus.
- 25) Bishop's score.

**VINAYAKA MISSION'S RESEARCH FOUNDATION**  
**(DEEMED TO BE UNIVERSITY), SALEM**  
**B.H.M.S. DEGREE EXAMINATION – December 2020**  
**Third Year**  
**OBSTETRICS AND GYNECOLOGY – PAPER - I**

Time: Three hours

Maximum: 100 marks

I. Write long essays on any **TWO** of the following:

(2 x 15 = 30)
